# Environmental and Corporate Training

---

Ecolateral has over 10 year experience in developing and delivering both environmental and corporate training.

## ***Environmental***

John Moynihan developed the first Residential Energy Efficiency Accredited course in Australia which subsequently became the base for the HIA Greensmart© National training program. Since then John has continued to develop and present course including;

- ***Triple Bottom Line Delivery***
- ***Energy Efficiency in Domestic Construction***
- ***Voc. Grad. Cert. in Sustainable Building***

Ecolateral will develop tailored courses to suit individual needs particularly in the areas of

- ***Public Education Seminars and Workshops***
- ***Developer Initiated Buyer Seminars***
- ***Energy and Water Auditing***
- ***ESD Development processes***

## ***Corporate***

John has developed and delivered courses for a number of training organisations. He has been engaged by Australian Institute of Management, Chifley, Master Builders Association, and the Housing Industry Association amongst others.

Typical courses delivered include:

- ***Negotiation skills***
- ***Leadership and Motivation***
- ***Introduction to Management***
- ***Marketing and sales skills***
- ***Skills of Customer Service***
- ***Time Management***
- ***Presentation skills***
- ***Effective Communication***
- ***Experiential Learning***
- ***Project Management***
- ***Environmental Management and Strategies***

- ***Successful report writing for Managers***
- ***Professional Selling Performance***

Ecolateral's unique approach to training stems from Johns multi disciplinary approach. His practical experience on delivering successful practical sustainable outcomes coupled with his formal qualifications in Architecture, Business Management and Carbon Auditing result in a comprehensive learning experience for the corporate or environmental student
